HANDLING AND FABRICATION
4.1.19
2019 Q2**

Nevada, IA

Happy Spring! Q1 was filled with custom fabrication work, research and development, and setting up the rest of the machines in the new facility. We are excited to now get back into the swing of things as we kickoff the spring.

GEAPS, one of the largest grain industry tradeshow, also took place Q1. GEAPS was a great turnout for Mid-States as both client and vendor relationships were further developed.

Customers will also notice a new format on their quotes and order acknowledgements as Mid-States has rolled out a new ERP system this spring. This system will allow the company to precisely track everything from quote to shipment.

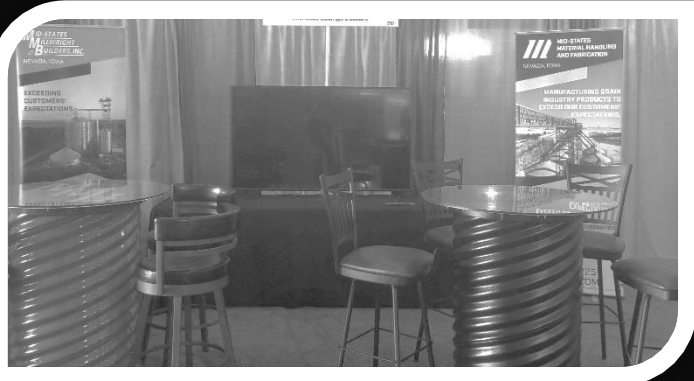

After setting up and testing all of our machines in Q1 we are now fully functional and ready to meet any of your fabrication or manufacturing needs! For more information call us at 515-382-1225 or email us at sales@mmfiowa.com.

**OUR MISSION: ANTICIPATING, RECOGNIZING, AND EXCEEDING CUSTOMER
EXPECTATIONS IN PROVIDING QUALITY PRODUCTS AND SERVICES**

“As a family owned company, we are committed to building professional working relationships with each one of our clients.”
